*Education, Innovation, Entrepreneurship*

## Eco Commerce Exchange (ECE)

Education plays an important role at all levels in building Innovation and Entrepreneurship capabilities.

ECE's virtual platform presents expert speakers and their approaches to Eco Innovation and Entrepreneurship education.

The purpose of this platform is to inform, inspire, and enable individuals to start and to grow entrepreneurial Eco ventures, and policymakers to formulate, monitor and evaluate national policies.

This Education platform delivers main issues that need to be addressed to ensure efficient integration of Education into Eco Innovation and Entrepreneurship strategies and policies, and outlines some guiding recommendations in this area.

The ECE also raises awareness about the role of Education and Research Institutions in encouraging science, technology and Eco innovation, while exploring some of the challenges that education institutions face with regard to their operation as players in the national system of Innovation.

Practice and policies from leaders in Education, Eco Innovation and Commerce will share their expertise, experience, strategies and programs.

### Grow Your Knowledge

Anyone Can Learn

Learn and grow your knowledge online, anytime, anywhere in the world.
