

**SCANDINAVIAN AMERICAN
FOUNDATION OF GEORGIA**

Georgia for Finnish Companies

We assist Finnish enterprises and organizations grow in the U.S. market. We provide a broad range of services to individuals, enterprises, and organizations, during their early, most vulnerable years in the U.S. market. We offer access to effective hands-on advisory and softlanding services, legal services, interim management teams, recruitment services, site selection services, referrals, fundraising assistance, shared office and manufacturing space, meeting rooms, administrative help, business equipment, financial and technical expertise, IT support, marketing PR, and other services that will help defer the need for heavy investment when a company is getting started in the U.S. and international markets.

Atlanta is a one-stop gateway for establishing your business in the U.S. You can join our hands-on advisory program and utilize our fast growing U.S. network of experts to efficiently enter the U.S. and International markets.

Our services are carried out with a network of highly qualified service providers, which include companies, R & D Institutions, Universities, Authorities, and American Economic Development Agencies. Together, we can effectively assist companies in setting up their offices, operations, and facilities in the U.S.

We serve the specific economic development needs of regional economic development agencies, public/private sector economic development alliances, state and national agencies, cities and other service organizations. We develop and implement partner projects to attract new investments and jobs to the region where we operate.
